The Mystery Person

Last monday a mystery person went to Miguel Delibes garden. José (the teacher of P.E) saw the person but the face no. This happened in Valladolid (Spain). It happened at 10:00 o'clock.

That person went to the garden and the students saw all. The person broke all the plants! The students went to José and they said that there was a problem.

José went to Paz (the head teacher) and told her everything. Later Paz went to the garden and she saw the person and called the police. The police went and the plants now are very good.
